MILITARY SPORT PROGRAM FOR THE CARNIVAL FIXED

Board of Officers Draws Up a Schedule That Assures Success of Meet

ALL EVENTS WILL BE AT KAPIOLANI PARK

Grand Military Pageant Will Close Four-Day Contest Between Organizations

[Special Star-Bulletin Correspondence] SCHOFIELD BARRACKS, Jan. 25.—A board of officers convened by the department commander spend most of the day Saturday planning a program of events for the military athletic meet which is to extend over four mornings of Carnival week, and the big military pageant which will be on the last afternoon of the Carnival. The program is to be submitted to General Carter for his approval but it is not likely that any changes of importance will be made. There was a representative from each of the regiments at Schofield on the board and they made a preliminary announcement to their respective regiments yesterday giving the details of the various events in order that preparations and training might be commenced without delay. The events selected are all of a spectacular and interesting nature from a spectator's point of view; long-drawn-out and uninteresting events such as jumping, the hammer throw and putting the shot were eliminated from the program, the idea being to make as much of a show as possible, and keep the excitement up to a high pitch. Late Saturday afternoon the board conferred with the director of the Carnival who was very much pleased with the plans that had been made, and approved the estimate for prizes and expenses which totalled something over \$500. The mooted question of giving cash prizes was thoroughly discussed, and it was decided to recommend cash prizes the same as last year with gold, silver and bronze medals in addition to the cash prizes for the winners of the individual athletic events. It was also decided to recommend that all the events and exhibitions be held at Kapiolani Park, the use of Alexander Field for the purely athletic events as originally contemplated not appearing feasible. The athletic meet is scheduled to take place on four successive mornings beginning with Tuesday, February 23, with some of the finals on Friday morning, and others as part of the big military pageant to be held on Saturday afternoon the 27th. Limitation of Entries. The entries for individual events are limited to three from each of the following: 1st Infantry, 2nd Infantry, 25th Infantry, 4th Cavalry, 1st Field Artillery, Coast Artillery, National Guard of Hawaii, Marine Corps, Navy, Signal Corps and Engineer Company. In the team events each of the above will be allowed but a single team. The Hospital Corps at any point will be allowed to enter a team in one or both of the two hospital events. With so many entries it will be necessary to have several preliminary heats, which it is expected will be completed during the first three mornings of the meet. Following is a summary of the events decided on: 100 yard dash, 220 yard dash, half mile run, race for retiring sharpshooters, two-mile flag relay, shoe race, carrying wounded contest, single bearer contest, two-mile baseball relay, tug-of-war. The Military Pageant. On Saturday afternoon, the last day of the Carnival, the finals of the flag relay race and tug-of-war will be staged, in which all branches of the service will be represented. Troop C of the 4th Cavalry will present a saddle drill, which will demonstrate the careful training of the horses and the facility with which they can be handled. Troop I will give a bareback drill full of thrills and acrobatic stunts on horseback. Along this line Troop I is one of the best trained troops of cavalry in the army. A battery of the 1st Field Artillery will run through a number of maneuvers including going into action at a gallop, firing some blank cartridges from the 3-inch rapid fire guns and then limbering up and making a hasty retreat. Co. I, 3rd Battalion of Engineers will build a bridge in less than 15 min-

TAX RATE TO BE HIGHER FOR 1915, M'CARTHY FINDS

Oahu to Pay 1.265 Per Cent This Year as Against 1.17 Per Cent in 1914

Territorial Treasurer C. J. McCarthy has determined the tax rate for the islands for the present year, in every instance finding that the rate is materially increased over that of 1914. The rate this year will be: First division, Oahu, 1.265 per cent, which means a rate of \$60,012.65 on the dollar; second division, Maui, 1.44 per cent; third division, Hawaii, 1.5325 per cent; fourth division, Kauai, 1.385 per cent. The rate in 1914 was: First division, Oahu, 1.17 per cent; second division, Maui, 1.29 per cent; third division, Hawaii, 1.38 per cent; fourth division, Kauai, 1.38 per cent. The treasurer explains that the reason for the increased rate is that in every county the 1914 assessed valuations were considerably lower than they were in 1913. The rate for this year must be figured on the basis of valuations last year. On Oahu, for instance, the valuations in 1913 were \$35,964,187. From that amount of property the taxes of last year were raised. But the valuations made last year were reduced from the previous year's figure to \$34,235,274, thus leaving for taxation rate purposes approximately \$1,428,000 less property on which to levy for territorial and county income. To raise the same amount of money, therefore, the rate had to be made higher. The same is true of each of the other counties. The manner in which the treasurer arrived at the 1915 rate is given in detail below: First Division, Oahu. Net assessed value 1914, \$34,235,274.00 For 1915 ratio, .598 plus .667, rate 1.265 1.265% Act 145 S. L. 1911. Subdivision 1— For current expenses— 1/2 of 1 per cent. \$421,176.37 Subdivision 2— For permanent improvements— 1/4 of 1% 140,392.12 Subdivision 4— For school buildings Act 149 S. L. 1913. 63,175.00 Subdivision 5A— For interest and sinking territory bonds 19,777.89 Subdivision 5B— For school salaries, etc. 379,088.27 Subdivision 5C— For assessing and collecting taxes 38,419.20 Total \$1,062,028.85 (Continued on page three)

VICTORY FOR BRITAIN'S NAVY IS CONFIRMED; ANOTHER TRIUMPH CLAIMED IN AIR SHIP RAID

GERMAN ARMORED CRUISER BLUECHER SUNK BY BRITISH IN NORTH SEA

Though not one of Germany's greatest ships, the Bluecher, sunk in the North Sea engagement yesterday, was a powerful and particularly fleet fighting machine. Completed six years ago, the Bluecher had a displacement of 15,500 tons, was 489 feet long and had a complement of 847 men. She carried twelve 8.2-inch guns, eight 6-inch guns and a number of smaller ones. Her cost was close to \$5,000,000. On her trials the ship touched 26.4 knots, and was regarded as a very successful ship in all respects.

EXTRA SESSION OF CONGRESS IS NOW A PROSPECT

Democrats Make Ships' Purchase Bill a Party Measure

[Associated Press Cable] WASHINGTON, D. C., Jan. 25.—The senate Democrats in caucus last Saturday decided unanimously to make the Ships' Purchase bill a party measure and back it in the fight in Congress as such. Originally there were three dissenting Democratic votes.

MAY MEAN EXTRA SESSION

[A. P. by Fed. Wireless] WASHINGTON, D. C., Jan. 25.—The Democratic decision to make the ships' purchase bill a party measure means the fiercest fight known in years. The Democrats are resolved to push the bill to passage regardless of the fate of the appropriations bill, giving a prospect of an extra session of Congress. Secretary of the Treasury McAdoo and Secretary of Commerce Redfield have submitted to the senate evidence that transatlantic freight rates have risen in some instances from 90 to 150 per cent. If the present rates are maintained, it is declared, they will constitute a charge on American shippers exceeding a half billion dollars annually.

The fire department was called to the corner of Liliha and Judd streets yesterday afternoon by a false alarm. The police are attempting to run down the parties responsible for the alarm.

Nakamura, a Japanese woman, alleged the proprietor of a refreshment parlor in Hotel street where Special License Inspector Fennell found intoxicating liquor on sale, forfeited bail of \$100 when the case was called in the district court this morning. More than \$300 in bail has been forfeited in liquor cases brought before the courts within the past week by Inspector Fennell and his officers.

A fire whose origin is yet a mystery totally destroyed a dwelling occupied by Julia Kamaka at Kunawai lane off Liliha street, early this morning. The building burned to the ground in a short time, the fire department being helpless because of a lack of water. The nearest hydrant was reported a mile distant. Little of the contents was saved. The inmates, several in number, escaped from the burning building with slight injuries.

British Board of Trade figures show average change in retail food prices between August 1 and December 1 was advance of 17 per cent. Prussian official figures show advance in Berlin in same period of 16.4 per cent. Statistics prepared for the Association of Life Insurance Presidents, show average life insurance carried by each of 22,000,000 families in the United States is \$922. About \$2,763,000,000 life insurance is in force in this country.

EMPLOYERS WIN BY DECISION OF SUPREME COURT

U. S. Tribunal Knocks Out Kansas Statute; Three Members Dissent

[A. P. by Fed. Wireless] WASHINGTON, D. C., Jan. 25.—What labor leaders declare is a decision of prime importance and one regarded with equal interest by employers was handed down today by the supreme court, a minority dissenting strongly. The decision holds unconstitutional the so-called Kansas "coercion statute." This statute forbade employers to demand of employees not to join or remain members of the unions while their employment lasted. The statute is now knocked out. Justice Mahlon Putney read the decision, the dissenting members being Justices Holmes, Day and Hughes. Justice Pitney reasoned that if the laborer has a right to demand a "closed shop" the employers can demand a non-union shop.

GEN. CARTER WILL REVIEW ALL TROOPS AT SHAFTER TOMORROW

The review is in connection with the annual garrison inspection, and Gen. Carter will be accompanied by Lieut.-col. McDonald, the department inspector. The troops will be in field uniform and equipment.

Frozen feet are one of the harassing conditions that obtain among the officers and men of the British army in the field.

CALIFORNIA'S CHIEF EXECUTIVE WILL VETO ANY ANTI-ALIEN BILLS

Governor Hiram Johnson.

[Associated Press Cable] SACRAMENTO, Cal., Jan. 25.—Governor Hiram Johnson last Saturday announced that he would veto any amendments made by this legislature to the alien land ownership act passed two years ago. The labor interests of the state have proposed amendments killing the right of aliens to lease land, thus taking further drastic action against Japanese land-holding in California.

Governor Johnson's announcement of his intention to veto any further anti-Japanese legislation probably will block any attempted action. The administration has full control of both houses of the legislature and even if a land-ownership bill should pass, he would have no trouble in getting enough votes to sustain a veto.

In ten years the fountain, stycographic and gold pen industry of the United States has almost trebled, while that of the steel pen has been doubled. Snakes in South Africa fear the secretary bird, and will even crawl away from its shadow. This bird devours snakes and can easily kill a reptile twice its size.
